product card, catalog

Parameters

OS: Windows 11 Pro Version 23H2
Browser: Google Chrome Version 127.0.6533.120

Steps to reproduce

Step	1
Action	Open the homepage.
Input data	https://qa.demoshopping.ru/
Expected result	The homepage is opened.

Step	2
Action	Go to the 1st page of product catalog using pagination.
Input data	
Expected result	The 1st page of product catalog is opened, the user can see no more than 6 cards with product, including an image, title, description, price, category, manufacturer and free shipping information.

Step	3

Action	Go to the 2nd page of product catalog using pagination.

Input data	

Expected result	The 2nd page of product catalog is opened, the user can see no more than 6 cards with product, including an image, title, description, price, category, manufacturer and free shipping information.

Step	4

Action	Go to the middle page of product catalog using pagination.

Input data	Go to the 5th page

Expected result	The 5th page of product catalog is opened, the user can see no more than 6 cards with product, including an image, title, description, price, category, manufacturer and free shipping information.

Step	5

Action	Go to the second to last page of product catalog using pagination.

Input data	

Expected result	The second to the last page of product catalog is opened, the user can see no more than 6 cards with product, including an image, title, description, price, category, manufacturer and free shipping information.

Step	6

Action	Go to the last page of product catalog using pagination.

Input data	

Expected result	The last page of product catalog is opened, the user can see no more than 6 cards with product, including an image, title, description, price, category, manufacturer and free shipping information.
